Class Descriptions

Puppy Class

Designed for puppies 6 months or younger. Start your puppy off on the right paw by introducing them to training at an early age. By starting obedience training early, you can begin to establish good behavior and introduce skills to your pup that will help make them a well trained adult dog. We will teach them that training is fun! This class will introduce you and your pup to simple behaviors such as sit, down, come and how to use a kennel.
